DETAILED ACTION

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the present invention is allowable over the prior art of record for at least the following reasons where the prior art of record fails to teach a plurality of spray units being adjoined to one another with a plurality of coupling elements where the spray units have passages that are formed when the spray units are joined together and have chambers at the ends of each spray unit. The coupling elements also reach into first and second ends of joined spray units where the coupling elements include a passage and a recess having a tapered surface where the passage of the coupling elements also communicates with the passages of the spraying units while reaching or joining into both chambers at the ends of the spray units. The prior art of record also fails to teach in combination a clamp that engages the tapered surfaces of the coupling elements and presses the spray units together to form a tight seal by way of screws.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Allowable Subject Matter

Claims 10-17 and 19 are allowed over the prior art.

Response to Arguments

Rejection under 35 USC § 102

Applicant's arguments, see pages 6-8, filed 06/13/2008, with respect to Claims 10, 14 and 19 have been fully considered and are persuasive. The rejection of Claims 10, 14 and 19 held under 35 U.S.C. § 102(b) to Obrecht (US 4,082,324) has been withdrawn.

Examiner has carefully considered Applicant's argument that claim 10 is patentably distinguishable over the prior art of record due to the structure of the coupling elements, which include a passage and a recess having a tapered surface where the passage communicates with the passages and reach into both chambers at the ends of the spray units (see Remarks, filed 06/13/2008 at pages 6-8). Applicant's detailed discussion of such claimed features by contrast to the art of record is persuasive. In view of the forgoing and the absence of additional art, the reasons for allowance are considered clear for the record.
